Here are a few reasons why you should take advantage of this **Free** service during Open Enrollment.

- **Your Health Care needs can change quickly and Medicare Plans change every year. It's important to review your plan. The Open Enrollment period allows you to switch to a plan that would better suit your needs.**
- **The cost of your plan might have changed. Being able to switch to another plan may save you a lot of money.**
- **Prescription (Part D) plans change yearly as well. It's always good to bring in a list of your medications and find out if you're getting the best prescription coverage possible.**

If you are turning 65 soon and receiving lots of information on Medicare that is confusing and overwhelming we can help with that too!
